**Senior Software Engineer | Technical Lead | Full-Stack Developer (C#, ASP.NET, .NET Web API, Vue.js, JavaScript, SQL Server)**

## Professional Summary

Senior Software Engineer and Technical Lead with 6+ years of experience designing, building, and supporting business-critical web applications using C#, ASP.NET, .NET Core/Web API, Vue.js, JavaScript, CSS, and SQL Server. Proven background leading technical analysis, guiding architectural direction, mentoring offshore developers, conducting code reviews, and delivering scalable solutions aligned with business goals in Agile environments. Strong in troubleshooting complex production issues, translating business requirements into technical solutions, and driving quality across multiple concurrent workstreams.

## Core Skills

C# • ASP.NET • .NET Core / Web API • Vue.js • JavaScript • CSS • SQL Server • SSMS • Visual Studio • Visual Studio Code • Git / GitHub / Bitbucket • REST APIs • Agile / Scrum • Code Reviews • Technical Leadership • Architecture Guidance • Production Support • Requirements Gathering • Troubleshooting • Mentoring

## Work Experience

### Senior Software Engineer

Amplify - Scottsdale, AZ | Jul 2024 - Present

- Lead technical analysis, solution design, architectural guidance, and code reviews for a distributed offshore development team supporting a financial technology platform.
- Design, develop, and maintain business-critical applications using C#, ASP.NET, .NET Web API, Vue.js, JavaScript, CSS, and SQL Server.
- Partner with Product, Scrum, stakeholders, and designers to identify technical requirements, refine scope, and deliver secure, scalable solutions aligned with business goals.
- Troubleshoot complex production issues, perform root cause analysis, and drive resolution for client-impacting defects and system outages.
- Mentor developers, enforce coding standards, and improve consistency, quality, and maintainability across multiple streams of work.
- Support delivery across CRM, digital forms, proposal generation, reporting, and related platform initiatives in an Agile environment.

### Software Engineer

Amplify - Scottsdale, AZ | Jul 2022 - Jul 2024

- Developed and enhanced enterprise web applications across CRM, reporting, investor-facing tools, digital forms, and internal platform features.
- Built and maintained full-stack solutions using C#, .NET, Vue.js, JavaScript, REST APIs, and SQL Server.
- Collaborated with cross-functional and international teams to deliver features on schedule in an Agile Scrum environment.
- Contributed to code reviews, sprint planning, backlog refinement, testing, and production support.
- Resolved software defects and performance issues to improve platform stability and user experience.

### IT Data Application Analyst

Arizona Auditor General - Phoenix, AZ | Dec 2019 - Jul 2022

- Designed and supported internal web applications and SQL-based solutions for public-sector audit operations.
- Gathered requirements from business users, translated needs into technical solutions, and delivered maintainable tools supporting reporting and operational workflows.
- Led small development efforts, delegated work, reviewed code, and mentored junior team members.
- Built experience in regulated environments requiring documentation quality, stakeholder trust, and clear written communication.

## Additional Experience

- **IT Auditor**, Arizona Auditor General — 2019
- **Chief Web Officer**, Global Bikes Bike Shop — 2013–2018
- **Data Migration Technician**, GearHost — 2017
- **Front End Web Developer/Designer**, LANstar LLC — 2017

## Education

### Bachelor's Degree in Computer Information Systems

Arizona State University - Tempe, AZ | Jan 2017 - Nov 2018

### Associate in Business Special Requirements

Chandler Gilbert Community College - Chandler, AZ | Aug 2014- Dec 2016
